Pochter Democrat and Chronicle.
Monarchies restored a reasonable rates.
G. Cleveland attorney.

ONE DEMOCRATIC STRONGHOLD.
Washington Post.—Queen Lili can trot out her roosters. Hawaii has gone Democratic by a handsome majority.

SOMEONE IS STUCK.
Washington Post.—Minister Willis is proceeding with the air of a man who is not particularly stuck on his job.

DIFFERENT.
Rochester Democrat and Chronicle.—Cleveland is not enough for war now, but it was different thirty years ago.

IN A POLITICAL VEIN.
Philadelphia Times.—It is just when the things are going to thunder that the candidate is afraid the lightning won't strike him.

A DEMOCRATIC PLAIN.
Utica Observer.—It may be that McKane may possibly escape personal punishment for what he did, but the party is never so fortunate.

RELATED ADVICE.
Washington Post.—Senator Hill would be much better off if he would only have struck this long silent spell just previous to the election.

REMINISCENCE OF KING "KAL."
Elmira Advertiser.—If Kalkauka was living now he would fling his I. O. U.'s right and left and refer the bank to his friend Gresham.

GET BREAD FROM A STONE, WILL YOU?
Rochester Democrat and Chronicle.—If Grover Cleveland would only do one thing to arouse a good, ringing, patriotic cheer how pleasantly the country would be surprised.

NOT THAT KIND.
Chicago Inter Ocean.—If Secretary Gresham does not wish to live in American history as worse than a failure he will say to that personal animosity of his "Get these behind me Satan."

WHERE THE SHOE PINCHES.
Providence Journal.—The more trouble some question in the minds of the members of the Ways and Means Committee in regard to the proposed income tax is probably not how much revenue it can be made to yield, but how many Democratic votes it is likely to lose.

AMERICAN SENTIMENT.
Pittsburgh Courier Telegraph.—All Commissioner Gresham may send to Hawaii to blacken the present government and whitewash the ex-Queen will not be able to weaken popular determination that the power of the United States shall not be used to bluster up a throne.

A BOSTONIAN VIEW.
Boston Journal.—Cleveland to Willis—Restore the monarchy!

WILLIE TO CLEVELAND (after a survey of the situation)—I don't see.
Cleveland to Willis—"Don't do it, then. It looks as if this told the whole Hawaiian story."

FEELS THE PULPIT.
San Francisco Examiner.—The press is greatly obliged to the pulpit, of course, but the newspaper office is at an elevation which affords a more extended and comprehensive view of human interests than the pulpit, by reason of its inherent doctrinal and mental limitations, is able to take. The newspaper speaks to all the people, not to a congregation.

THE STREET CARS DID A GREIVIOUS BUSINESS yesterday, it being a good day for ducks out but not for humanity.

EXCITEMENT AT ASHLAND.
Trouble For Newcomers If They Take the Places of Strikers.

General Manager C. M. Greene of the Norton Iron Works arrived at Ashland yesterday from Pittsburgh with seventy-five soldiers and rollers to take the places of the local strikers who are asking for the Amalgamated Association scale of \$4.75 per ton.

The newcomers were hired at a rate of \$4.50 per ton with a guarantee of six months' work.

This rate was rejected by the local men.

Public feeling is greatly against the company for this action, and a mass meeting was held at the Action Chamber in which both the home men and the newcomers participated.

No agreement was reached, but the strikers were given to understand that some of them would be allowed to enter the mills at the rate offered.

Serious difficulty will certainly ensue if they attempt it.

There is considerable excitement and some drinking.

It is feared if a cut is permitted there from Portland, Portsmouth and Covington mills will cut later.

REV. JOSEPH GRIS, who is well known in this city, will visit Mrs. Mary Doud, the organist at the Newport Union Bethel. Rev. Gris has many friends in this city who are anxious to hear him preach.

Pain in the chest there is nothing better than a flannel cloth saturated with Chamberlain's Pain Balm and bound over the seat of pain. It can produce a counter irritation without blistering, and it is not so disagreeable as mustard; in fact it is much superior to any plaster on account of its pain-relieving qualities. It is fine time it will prevent pneumonia. Fifty cent bottles for sale by John J. Reynolds, Druggist.

The Business Way!
The business way to advertise is to take space by the year, take pains with your advertisements making them attractive, and change them at least as often as once a month.

You may think there are seasons when you don't need to advertise.
We have never seen that time.

Use the dull seasons for looking over your stock and running off that which is becoming out of style or un-fashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in those things which are salable.

Where is That Banner Now?
Greenberg (Ind.) Banner—During the last campaign the Democrats of this city displayed a banner in their processions bearing this inscription:

A liberal reward will be paid for that banner at this office, and no questions asked.

This people have had enough of Democratic Administration in the Nation and states both. In the history of parties in this country, there has never been such a turnover in a single year.

The addition of wool, coal, iron ore, lumber, salt and many other articles to the free list may be a boon to those who use them as raw materials, but what Protection will be afforded to those engaged in their production? We shall see how this method of hedging on the tariff succeeds.

The weekly statement of the associated banks of New York shows the following changes: Reserve, increase, \$5,254,700; loans, increase, \$3,408,500; specie, increase, \$1,093,300; legal tenders, increase, \$6,552,500; deposits, increase, \$10,827,000; circulation, decrease, \$34,720. The banks now hold \$70,535,175 in excess of the requirements of the 25 per cent. rule.

THOUSANDS of crows are now taking up their winter quarters in Jessamine and several new roosts are reported. Spilled from Lexington should spike these crows, for they are a heavy tax upon the corn in the shock—Nicholasville Observer.
We believe Jessamine is a Democratic county, and we believe also that at the late election she proved that fact. The crows are a good dish for the Democrats this year, and they have been flying a long while looking for some place that would Democratic and have at last found it. Eat your little mess of crows, Jessamine Democrats, for your Thanksgiving dinner. They flew by Mason, because she came very near going the right way; but you people will have to put up with your crows. You crows! November. Now you can eat the crows.

MORTON'S REPORT

Of the Work of the Department of Agriculture.

WASHINGTON, Nov. 28.—The secretary of agriculture, in his report just submitted to the president, regrets the vague character of the department organization, which, he says, "offers excellent opportunities for the exercise of the most pronounced paternalism."

He suggests that state experimental stations should be entirely divorced from the department and the same appropriated directly to them, so that the secretary should have some power to direct and restrain their expenditures so as to insure a legitimate expenditure of the same.

He states that there are now on the rolls only 1094, a reduction of 863 from the number when he took charge. Concluding his report, Secretary Morton says:

"There are now in the United States more than 6,000,000 farms, upon which dwell more than 30,000,000 people, who furnish more than 74 per cent of the value of exports of this country. The department is, therefore, charged with responsibility and interests affecting the life, property and happiness of the whole people."

A DUTY ON SILVER.

The Move Is Likely to Be Brought Up in the Senate.

WASHINGTON, Nov. 28.—Those who have observed the difficulty of keeping the silver question in the background will not be surprised to learn that this subject is destined to assert its right to a hearing in connection with the tariff. It will come in the shape of a proposition to put a duty upon silver imports, not in the house but in the senate, if the plans of those who have the matter in hand do not change. The effort to secure this innovation will be made in connection with the metal schedule, and it will be coupled with the item covering lead and silver lead ore. The purpose of this movement is two-fold. It may prepare the way for the free coinage of the American product of the country, about which so much has been heard in recent years, and it is expected to prevent the counterfeiting of the American dollar in other countries and the sending of the counterfeit coins to the United States.

SUSTAINED

Are the Decisions of Judges Taft and Hicks in the Celebrated Ann Arbor Strike Cases.

WASHINGTON, Nov. 28.—The supreme court Monday rendered its decision in the celebrated Lennox railroad case, regularly known as the "Ann Arbor strike case," from Toledo. The supreme court sustains in every point the decision of Judges Taft and Hicks sustaining Lennox and dismissing the appeal at the cost of the appellant.

This settles the question whether railroad employees have a right to refuse to deliver goods from one railroad to another at any point because a strike is pending upon one or the other roads and decides it in the negative.

The Message Only Half Finished.

WASHINGTON, Nov. 28.—The president's message to congress is not half finished and he is denying himself to all callers to work upon it. He does not come into his office except on cabinet days, Tuesdays and Fridays, and works late into the night. Heretofore President Cleveland has usually allowed himself six weeks to work on a message. It is supposed that he has deferred the work on this year to allow time for some development in the Hawaiian matter.

The time for congress to convene is so near that no longer delay is possible. It is, therefore, thought probable that the Hawaiian matter will be treated later in a special message.

JURY CORRUPTION.

Coughlin Case, in Chicago, Abruptly Postponed—Affidavits to the Effect That the Jury Men Were "Bribe" by Coughlin's Friends.

CHICAGO, Nov. 28.—The discovery of an attempt to corrupt the jury brought the Coughlin trial to an abrupt pause Monday. The state's attorney was given information just before court opened that certain jurors, whose names the officials would not divulge, are intimately connected with some of Coughlin's friends; that they were placed in the venire for the purpose of getting them on the jury, and that they were "coached" as to how they should answer all questions put to them in order to qualify themselves as jurors. A dozen detectives were put to work investigating the allegations. Affidavits embodying the facts were hastily prepared and sworn to.

There was a brief consultation between the attorneys for the state and Judge Tuthill in the latter's chambers before court opened. When the judge took his seat State Attorney Kern, addressing the court, asked that the case go over until 3 o'clock. Whereupon the case was called at 3 o'clock Monday afternoon for the attorney for the state asked Judge Tuthill for another continuance until 3 o'clock Tuesday afternoon. Judge Tuthill granted the request, and the case was continued. It is reported that two jurors had been arrested, and that startling disclosures will be made.

COMMENTS.

Prominent Public Men Express Themselves

On the Tariff, and, as Usual, Differ in Their Opinion.

Representative Bryan Much Pleased With the New Bill—Representative Tarsan, That It Compromises the Demands of the People.

WASHINGTON, Nov. 28.—There were many interesting comments upon the tariff bill heard about the public buildings Monday.

Representative Bryan, of Nebraska, a democratic member, gave out the following statement in regard to the new tariff bill: "I am very much pleased with the tariff bill. In fact, it is nearly carried out on the platform upon which I was elected in 1890, that I could not well be dissatisfied with it. I wrote the tariff plank for the platform, and I want to detail more than is usual."

Representative Tarsan, one of the democratic members of the ways and means committee, was seen shortly after the bill was made public, and expressed himself as follows: "I think it is a substantial compliance with the demands of the people, the pledges of the democratic party. Its reforms lie in the fact that it gives to our manufacturers many of the raw materials essential to their industries without duty and enables us to make substantial reductions on the duties on manufactured products. It changes the old system of taxing necessities, high and luxurious low, and puts luxuries at the high rate and necessities at the low rate. It is absolutely free from sectional favoritism. Every industry and every section is being treated with fairness. No duty has been reduced so low as to seriously interfere with the wholesome development of our manufacturers, giving no occasion for the closing of a single industry."

The following statement was made by Hon. Clifton B. Breckinridge, of Arkansas, one of the members of the ways and means committee:

"The new tariff bill, it is proposed shall go into effect on the first day of March. It is in most schedules however, a substantial reduction of the present law. The general average can not be precisely stated until the elaborate tables which are being prepared are completed. Some of the objectionable taxes will be taken off, and of this amount about \$15,000,000 pertaining to raw material placed on the free list."

Mr. Benton McMillan, of Tennessee, one of the most prominent members of the committee, said: "The democratic party has fought the fight for tariff reform for a quarter of a century, often baffled, often defeated. It has after defeat, come boldly forward, unflinching by political danger, and renewed the fight."

Mr. Dalzell, of Pennsylvania, a member of the committee, said that it was his intention to vote for the bill on any opinion except in a general way. As to the effect of the bill, he said, would be to reduce the tariff on necessities 100 per centum, he thought the bill should be called a tariff bill only for revenue."

Mr. Dalzell criticized severely the ad valorem system of revenue which the bill incorporates, as he claims that it invariably results in a cheating of the government and a loss of revenue by every secretary of the treasury, democrat and republican alike, from time immemorial. He said that the free list was a wonder.

BOLD GERMANS.

They Criticize Emperor William in the Reichstag.

BERLIN, Nov. 28.—In the reichstag Monday Herr Fritzen, centrist, severely criticized the speech delivered by Emperor William at the opening of the session. He was followed by Herr Babel, social democratic leader, who delivered an oration attacking the whole line of the government's policy. The Hanover gambler trial, he said, although Bismarck was a great gambler, it was absurd to suppose that every gambler was a good soldier. He was a bad sign for military discipline, he added. If even the emperor's rescript against gambling was disobeyed. He referred to the recent army mutiny and pointed out that the troops had been led uncovered against a covered enemy.

At Fifty Per Cent.

He pointed out the withdrawal of the suits recently filed and stop all litigation in that direction.
